How to Install cTrader

A simple guide for installing cTrader on your PC.

▶ Double-click the downloaded file (If a security warning a
ppears, click on Run as it is.)

▶ Security Warning will be displayed. Click "Install".

▶ The installation progress is displayed. After the progress bar
fills with green, it's finished.

▶ You should now have "Axiory cTrader" displayed on your desktop,
ready for you to launch.
